SKIN & BODY

"WE BELIEVE IN CREATING CONFIDENCE, OUR  
PASSION SHOWS WITHIN YOUR SKIN."

It goes beyond the surface, working to balance pigmentation, improve blood flow, enhance somatosensation, reduce inflammation, modulate the immune system, and safeguard against mutation and oxidative damage.

Explore the science-backed benefits of the StemZyme Dietary Supplement, a precise blend of potent botanical extracts. When combined with DMK Skin Revision Treatments, this supplement becomes a key player in skin rejuvenation – supporting collagen production, nurturing new epidermal stem cells, and delivering a range of practical advantages.

The StemZyme Supplement is suited for anyone over 10yrs of age to; maintain skin repair and regeneration, maintain healthy blood circulation, relieve symptoms of mild eczema/ dermatitis, relieve symptoms of mild psoriasis and relive inflammation.

Breakthrough in microneedling RF for greater depth with less pain.

The first technology to boost hyaluronic acid non-invasively.

The versatile body solution for Lax Skin & Localized Fat.
