VANESSA MEGAN™
Naturaceutical Skincare

Introducing Vanessa Megan Naturaceutical Skincare Body Range

Vanessa is known for her uncompromising commitment to clean, synthetic free skincare and Vanessa Megan is considered an Australian pioneer and leader in certified organic skincare. Now trading in premium department stores internationally and boasting the same efficacy results as iconic skincare brands.

DID YOU KNOW WE SEE JUST AS MANY MEN IN CLINIC THAN WE DO WOMEN!

It is estimated that men use up to 30 per cent of all (women's) retail skincare products. However, males definitely benefit from a dedicated approach to skincare and from treatments and products that respect their unique biological attributes. We've seen that men generally have a thicker corneum, more copious sebaceous flow and a higher plasmatic reaction than females, hence the professional DMK treatments are often a bit more aggressive to deliver results. Consult your DMK Skin Revision Technician to discuss the treatment and Home Prescriptive products that are right for your skin. Whether you are a male or female, DMK is focused on improving the long-term health of your skin, not on quick fixes. Their products are devised around the DMK's revolutionary concept of REMOVE, REBUILD, PROTECT and MAINTAIN, and work with the structure and function of the skin to generate long-lasting results.

AN INSIGHT TO HOW MUCH PRODUCT YOU SHOULD BE USING
